

CONTENTS

<i>Panasyyuk V. V., Sylovaniuk V. P., and Ivantyshyn N. A.</i> The influence of nonmetallic inclusions on endurance limit of metals.....	5
<i>Shvaiko M. Yu., Filkevych M. M., and Estrin S. Yu.</i> Comparative analysis of sliding theories with regular and singular loading surfaces.....	10
<i>Lokoshchenko A. M. and Platonov D. O.</i> High-temperature long-term strength of a shell in aggressive medium with the account of mass exchange.....	17
<i>Kaczyński A. and Matysiak S. J.</i> Green's functions for the conditions periodic four phase elastic space with an interface crack or a rigid line inclusion.....	25
<i>Andreikiv O. Ye. and Sas N. B.</i> Strength of thin-walled structural elements with cracks under creep.....	33
<i>Mieczkowski H., Molski K., Seweryn A.</i> Determination by finite element method of the stresses and displacements near the tip of elastic sharp inclusions.....	40
<i>Filshynskiy L. A. and Shramko L. V.</i> A boundary-value problem of electroplasticity for a piezoceramic elliptical cylinder and a layer with a tunnel hole.....	49
<i>Ivanytskiy Ya. L., Boiko V. M., Khodan I. V., and Shtayura S. T.</i> Stress-strain state of a cylinder with an external circular crack under dynamic torsion.....	55
<i>Shyrokov V. V. and Ratska N. B.</i> The influence of titanium admixtures on structure and physicomechanical properties of niobium.....	65
<i>Hembara O. V., Terletska Z. O., and Chepil O. Ya.</i> Determination of electric fields in a system electrolyte-metal.....	71
<i>Yeliseyeva O. I. and Tsisar V. P.</i> The influence of temperature on interaction of ЭП823 steel with oxygen-saturated lead melt.....	77
<i>Nazarchuk Z. T., Kulynych Ya. P., and Datsko Ya. V.</i> A numerical method of electromagnetic field determination in a metal with crack.....	85
<i>Nazarenko O. M. and Lozhkin O. M.</i> A plane problem of elastic harmonic waves diffraction on the periodic system of rigid curvilinear insertions.....	94
<i>Narivskiy O. E.</i> The influence of AISI 321 steel heterogeneity on pitting in chloridecontaining medium.....	100
FROM THE HISTORY OF FRACTURE MECHANICS DEVELOPMENT	
<i>Yarema S. Ya.</i> Formation of the science about metal fatigue. Part 2. 1870–1940.....	107
SCIENCE FOR PRODUCTION	
<i>Zaborski S. and Lunarska E.</i> Factors affecting the surface quality of the ground WC–Co alloy.....	117
SHORT REPORTS	
<i>Zor S. and Yakar E.</i> Efficiency of NH_4NO_3 and Na_2CrO_4 mixture for corrosion protection of iron in chlorine medium.....	122
<i>Buria O. I. and Kozlov H. V.</i> Yielding mechanisms of carbon plastics based on high-density polyethylene.....	124
OUR LOSSES
